

Date: Jul 30, 2025

Roles: Developer

Subject: Cybermon: The Age of AI - coming 6 October 2025

Hi {{first_name}},

Cybermon returns on October 6, 2025 - and this year, it's evolved with The Age of AI.

What's Cybermon?

Cybermon are little creatures that make the web insecure. Each represents a real-world security vulnerability. Beat it by completing quick, hands-on challenges (most take less than 10 minutes).

Earn your weekly badge by completing 3 activities. Defeat all 4 Cybermon to become a Cyberhero.

New in 2025: Cybermon Prime

This year's theme "The Age of AI" explores how AI-assisted development changes the game for secure coding. Once you've beaten a weekly Cybermon, you can unlock a tougher **Cybermon Prime** challenge that dives deeper into vulnerabilities amplified by AI.

Go beyond the basics and test your skills. Defeat all 4 Prime versions to reach **Cyberhero Prime** status.

Why join?

- **Relevant:** Focused on today's dev workflows and AI tooling
- **Time-efficient:** core activities only take 20–30 minutes a week.
- **Recognition & rewards:** win limited edition SCW swag via random prize draw
 - Cyberhero = 1 entry
 - Cyberhero Prime = 2 entries

No registration required. Save the date, and **on 6 October**, head to <https://portal.securecodewarrior.com/> and go to Cybermon page.

Yours securely,

Secure Code Warrior
